Fonds: Background Materials for “Handbook of Geology in Civil Engineering” (co-authored by Dr. Robert F. Legget and Paul Karrow)

Fonds Number: F-11000

Creator Name: Robert F. Legget

Dates of Creation: 1968 - 2006

Physical Extent: The collection consists of 4.7244 metres of textual records

Arrangement: Based on the original order of the donator.

Scope and Content: The collection consists of the papers of Dr. Robert F. Legget assembled for research in writing the book “Handbook of Geology in Civil Engineering” (co-authored with Paul Karrow). The research records are arranged in Series groups: general, background by chapter, geographical, topical. Also included are photographs, drawings, figures, the original manuscript, and copies of the final publication.

Abstract / Summary:

Donor: Boyd, Frederick C., P. ENG., (A013.52); Lawson, Donald S., (A013.05); Weller, James A., (A015.66); Williams, Norman L., (A014.04).

Historical / Administrative Note:

Biographical Sketch: Source for Administrative History for Robert F. Legget is: Library and Archives Canada (www.collectionscanada.gc.ca)

Preferred Citation: Background Materials for “Handbook of Geology in Civil Engineering” (co-authored by Dr. Robert F. Legget and Paul Karrow), University of Ontario Institute of Technology Archives, Oshawa, Ontario, Canada.

Owner: UOIT Library Archives

Restriction Summary: Access restrictions apply consistent with the University’s guidelines under FIPPA.

Location: UOIT Library Archives. By appointment only

Biography:

Archival History: This collection was held by Paul Karrow and donated to the UOIT Library Archives through Michel Aubertin, President, Canadian Geotechnical Society. The original collection was maintained by Paul Karrow. Ownership was transferred to the UOIT Library Archives effective June 1, 2010. The materials were then evaluated, catalogued and processed by Brenda J. Jackson. Finding Aids and the online access were made available March 2011. No further accruals are expected.

Accruals: Not Expected.
Series 1:  
F-11000.01; Series Name: Research – General  
The Series consists of general research records including books, booklets and loose papers used by Robert F. Legget and Paul Karrow in writing the Handbook of Geology in Civil Engineering.

Series 2:  
F-11000.02; Series Name: Research – Background by Chapter  
The Series consists of research material organized by the 50 chapters in the Handbook of Geology in Civil Engineering authored by Robert F. Legget and Paul Karrow.

Series 3:  
F-11000.03; Series Name: Research – Geographical  
The Series consists of research material organized by geographical areas in Canada, United States and around the globe. Assembled by Robert F. Legget and Paul Karrow in writing the Handbook of Geology in Civil Engineering.

Series 4:  
F-11000.04; Series Name: Research – By Topic  
The Series consists of research material organized by topics such as rocks, soils, groundwater, climate, geology maps, materials, floods, earthquakes, etc.

Series 5:  
F-11000.05; Series Name: Photographs and Drawings  
The Series consists of photographs, drawings, figures, etc used by Robert F. Legget and Paul Karrow in writing the Handbook of Geology in Civil Engineering.

Series 6:  
F-11000.06; Series Name: Publications  
The Series consists of the original manuscript, scrapbooks organized by chapter, and six copies of the published volume (one in Spanish) of the Handbook of Geology in Civil Engineering.

Series 7:  
F-11000.07; Series Name: Correspondence  
The Series consists of one piece of correspondence.

Series 8:  
F-11000.08; Series Name: Financial  
The Series consists of one financial record itemizing Dr. Legget’s expenses in producing the Handbook of Geology in Civil Engineering.
